01

Executive Summary & Project Overview

Verdant Valley Eco Villas redefines the concept of villa living in Goa — weaving sustainable architecture, forest-inspired landscapes, and resort-calibre amenities into a curated community of 58 private villas spread across 58 acres of undulating North Goan countryside. The project invites residents to inhabit a lifestyle that is simultaneously luxurious and ecologically responsible, embodying a 'low-carbon, high-comfort' philosophy.

Vision Statement

Aurora Crest's vision for Verdant Valley is simple yet profound: deliver a living environment where biodiversity flourishes alongside human habitation. Every villa plot retains a minimum of 65% soft landscaping, mature tree transplantation ensures canopy cover on day one, and all community infrastructure is powered by 100% renewable energy sources by FY2028.

Key Project Metrics

58 Acres Land Area	69 Acres Total Project Footprint	4,006 Expected Residents	Q1 2030 Completion	10–17% Annual Appreciation	IGBC Platinum Green Target
--	--	--	--	--	--

02

Location Analysis & Connectivity

Project Location: North Goa | Micro-Market: Saligão – Calangute (Bardez Taluka)

Distance & Connectivity Matrix

Destination, 'Distance / Travel Time']	
Goa International Airport (Dabolim)	42 km / ~55 min
Mopa International Airport (new)	18 km / ~25 min
Panaji City Centre	11 km / ~18 min
Calangute Beach	4.5 km / ~8 min
Anjuna Beach	6.0 km / ~12 min
NH-66 (Mumbai–Mangalore Highway)	5 km
Thivim Railway Station	12 km / ~20 min

Key Social Infrastructure Nearby

- Don Bosco School Panjim (14 km)
- Manipal Hospital Goa (9 km)
- LuLu Mall Goa (proposed, 7 km)
- Goa Medical College (38 km)
- Anjuna Flea Market (6 km)
- Candolim Beach (7 km)

Micro-Market Commentary

Saligão occupies a unique geographical pocket — elevated enough to offer panoramic views of the Western Ghats foothills, yet within 10 minutes of North Goa's busiest tourist belt. Bardez Taluka has seen a 48% CAGR in residential villa land prices over 2018–2024, driven by NRI demand, the Mopa Airport effect, and Goa's emergence as a year-round destination for remote-working professionals.

03

Architecture & Master Plan

Design Philosophy

The villas are designed by Mumbai-based Biome Environmental Solutions in collaboration with Goa-based architect studio Verde Labs, fusing tropical vernacular architecture with contemporary biophilic design principles. Sloped laterite stone roofs, deep overhanging eaves, open-to-sky courtyards, and full-height sliding glass panels blur the boundary between interior and exterior. Every villa is oriented to maximise cross-ventilation from the prevailing south-westerly monsoon breeze, dramatically reducing mechanical cooling loads.

Structural Engineering

Foundations are of isolated RCC footing type on shallow bearing strata (bearing capacity ≥ 15 T/sqm as confirmed by SBC tests). Superstructure employs load-bearing laterite block walls (locally sourced Cuddapah laterite) infilled with RCC columns and beams, achieving thermal mass that keeps interior temperatures 3–5°C below ambient. Roof tiling uses traditional Mangalore clay tiles with an insulating airspace, providing excellent rain noise attenuation and thermal performance.

Tower / Block Schedule

Tower / Block	Height / Configuration	Unit Type	Count / Area
Forest Villas – Type A	Single Storey (G+0)	3 BHK with private plunge pool	24 villas
Forest Villas – Type B	Double Storey (G+1)	3 BHK with deck & garden	36 villas
Premium Villas – Type C	Double Storey (G+1)	5 BHK with pool & landscaped garden	18 villas
Ultra-Premium – Type D	Double Storey + Terrace	5 BHK Sky Villa with panoramic deck	6 villas
Cluster Homes – Type E	Single Storey	3 BHK garden home (shared amenities)	48 units

04

Unit Configuration & Floor Area Schedule

Configuration	Area	Price Range	Count
3 BHK Forest Villa Type A	2,800 sqft built-up; 6,000 sqft plot	■3.20 Cr – ■3.80 Cr	24 units
3 BHK Forest Villa Type B	3,400 sqft built-up; 7,200 sqft plot	■4.10 Cr – ■4.80 Cr	36 units
5 BHK Premium Villa Type C	4,800 sqft built-up; 10,000 sqft plot	■7.50 Cr – ■9.00 Cr	18 units
5 BHK Ultra Villa Type D	6,200 sqft built-up; 14,000 sqft plot	■12.00 Cr – ■15.50 Cr	6 units
3 BHK Cluster Home Type E	2,200 sqft built-up; 3,600 sqft plot	■2.50 Cr – ■2.90 Cr	48 units

Interior & Construction Specifications

Living & Dining Flooring	Kota stone / Tandur stone (local natural stone, polished)
Bedroom Flooring	Teak wood tongue-and-groove flooring (FSC certified)
Kitchen Platform	Black Marquina marble countertop; Blum soft-close hardware
Bathroom Fittings	TOTO / Kohler sanitaryware; Grohe fittings; stone feature wall
Outdoor Terraces	Anti-skid natural slate tiles; built-in planters with auto-drip
Pool (Type A, C, D)	Mosaic tiled plunge pool (3.5m × 2.5m); saltwater chlorination
Doors – Main	Solid teak wood door with traditional Goan brass hardware
Doors – Internal	Solid teak flush doors; concealed Hafele hinges
Windows	Aluminium thermally broken frames; clear float glass with UV cut
Ceiling Height	3.6 m (Single storey); 3.2 m (Upper floor)
Roof	Mangalore clay tile with 75mm insulation board & waterproof membrane
Solar System	6 kWp rooftop PV per villa; net-metering capable
Rainwater Harvesting	Individual RWH tank (15,000 L) with first-flush diverter per villa
AC System	Daikin split inverter ACs; pre-ducted; solar-assisted pre-cooling
Garden	Landscape design by Godrej & Boyce Garden Studio; drip irrigation

05

Amenities & Lifestyle Features

Clubhouse & Indoor Amenities

- 12,000 sq.ft nature-inspired clubhouse – bamboo & laterite construction
- Infinity rim-flow pool (32m lap lane) overlooking valley; Bali-style pool deck
- Ayurvedic spa & wellness centre (6 treatment rooms; mud therapy, hydrotherapy)
- Yoga & meditation pavilion (open-air; teak deck; forest backdrop)
- Gymnasium (1,200 sq.ft) – Technogym Life Fitness equipment
- Organic café & farm-to-table restaurant (40 covers; resident & non-resident)
- Library / reading alcove with curated biophilic design book collection
- Community living room with board games, media projector, informal lounges
- Co-working space (20 desks + 2 private pods) for remote-working residents
- Children's Montessori play area (indoor + outdoor; nature-based play equipment)

Outdoor & Recreational Amenities

- 4 km cycling trail network through the community (looped; signage & rest nodes)
- 2.5 km nature walking trail along seasonal stream corridor
- Organic farming zones (2 acres; resident allotments of 150 sqft each)
- Birdwatching tower (12m steel lookout structure)
- Butterfly garden (endemic plant species; interpretive signage)
- Outdoor amphitheatre for community cinema & events (100 pax)
- Pet park (3,000 sqft; agility course; wash station)
- Children's adventure park (bamboo climbing structures; rope bridge; zipline)
- Stargazing lawn with anti-light-pollution landscape lighting strategy
- Herb garden & spice garden (community harvest programme)

Resident Services & Building Operations

- 24x7 security: vehicle access via ANPR cameras, boom barriers, foot patrol
- Community app (Villa Connect): maintenance, bookings, visitor management, helpdesk
- Villa maintenance team (on-call electrician, plumber, landscaper)
- Concierge services: airport transfers, villa caretaking, housekeeping on demand
- Dedicated EV buggy transport within the community (shared fleet)
- Superfast fibre (1 Gbps; JioFiber backbone; individual ONT per villa)
- 3-bin waste segregation: wet compost on-site; dry recyclables aggregation
- Resident-managed organic composting programme (black soldier fly bioconversion)

06

Sustainability & Green Initiatives

Verdant Valley Eco Villas targets IGBC Green Homes Platinum at the community level and LEED for Homes Gold at the individual villa level. The project’s sustainability charter is built around five pillars: Zero-waste operations, Net-zero carbon community, Water-positive design, Biodiversity enhancement, and Circular material economy. An independent ESG audit will be conducted annually by KPMG Environmental Advisory.

Sustainability Initiatives Detail

Solar PV (Community)	1.2 MWp solar farm; covers 100% of common-area energy by FY2028
Villa Solar	6 kWp rooftop per villa; net-metering with DISCOMS; 40% annual offset
Rainwater Harvesting	Community RWH system (3.5 million L) + individual villa tanks
STP	400 KLD MBBR plant; 100% recycled for irrigation; CPCB compliant
Organic Farming	2-acre certified organic farm; zero synthetic inputs; community subscription box
Tree Plantation	5,000 endemic species planted; 30% canopy cover maintained
Green Materials	85% locally-sourced laterite, bamboo, reclaimed wood in construction
Low-VOC	All paints, finishes & adhesives VOC < 50 g/l; GreenGuard Gold
Passive Cooling	Shading studies reduce AC load by 35%; pergolas & overhangs
Wildlife Corridor	4-acre wildlife buffer zone on eastern boundary (fenced exclusion zone)
Carbon Accounting	Annual community carbon footprint report; offset via Gold Standard credits

07

Smart Home & Intelligent Building Systems

Despite the eco-rustic aesthetic, Verdant Valley integrates a thoughtful smart home backbone designed to minimise energy consumption while maximising resident comfort. The system is 'invisible by design' — technology is embedded within the vernacular architecture without compromising the natural, unhurried aesthetic of the community.

Technology Features

Villa Energy Monitor	Real-time solar generation vs consumption dashboard on in-villa display
Irrigation Automation	Soil moisture sensor-driven drip system; weather-adaptive scheduling
Pool Automation	Remote pH/chlorine monitoring; scheduling via app
Security System	CCTV at villa entry + community perimeter; smart lock on main gate
Voice Control	Alexa-integrated lighting scenes; 'Good Morning' and 'Away' presets
Temperature Sensing	Each room has ambient sensor feeding into split AC scheduling
Generator Auto-Start	10 kVA per villa; auto-starts within 8 seconds of grid failure
Community App	Villa Connect: maintenance, amenity booking, visitor QR, community feed

08

Market Analysis & Competitive Landscape

Goa's luxury villa market underwent a structural reset post-2020, transitioning from a purely holiday-home market to a primary / hybrid-living market. Remote working professionals, high-net-worth NRIs, and Mumbai / Bengaluru buyers seeking lifestyle upgrades now constitute over 65% of villa buyers in North Goa. Calangute–Saligão belt specifically has seen villa prices appreciate 52% between 2020 and 2024.

Market Comparables

SNN Raj Serenity – Saligão	■12,000/sqft	42	Q2 2023	Sold Out
SNN Raj Serenity – Saligão	■12,000/sqft	42	Q2 2023	Sold Out
Mahindra Windchimes – Arpora	■13,400/sqft	60	Q4 2022	Sold Out
Piramal Vaikunth – Calangute	■14,200/sqft	36	Q1 2025	95% Sold
Verdant Valley – Saligão	■11,400/sqft	132	Q1 2030	Launching

Price Appreciation Forecast

Year	Price / sqft	Annual Change	Commentary
FY2025	■11,400/sqft	—	Launch
FY2026 (Proj.)	■12,900/sqft	+13.2%	Construction Slab
FY2028 (Proj.)	■15,600/sqft	+10.0%	Near Possession
FY2030 (Proj.)	■19,200/sqft	+11.0% CAGR	Post Possession

09

Investment Analysis & Financial Projections

Goa villa investments offer a unique dual return profile: strong capital appreciation combined with high-yield short-term rental income on platforms such as Airbnb, MakeMyTrip, and Vrbo. The Verdant Valley Villa Rental Programme (VRP) — an optional managed rental service operated by Aurora Living Services — targets 75% annual occupancy through a curated premium guest experience.

Projected Rental Yield by Unit Type

Configuration	Expected Rent	Gross Yield	Target Tenant
3 BHK Forest Villa	■12,000–18,000/night (peak); ■7,000–10,000 (lean)	~8.5% gross	Airbnb / VRP
5 BHK Premium Villa	■22,000–32,000/night (peak)	~8.0% gross	VRP Premium Tier
5 BHK Ultra Villa	■40,000–55,000/night (peak)	~7.5% gross	VRP Luxury Tier

Payment Plan Options

Payment Plan	Structure	Notes
Construction-Linked Plan	10:10:10:10:10:10:10:10:10:10	Standard RERA-linked
Flexi Booking Plan	20% now; 30% in 6 months; 50% at possession	Preferred by NRIs
All-Cash Plan	100% within 45 days of allotment	5% price advantage

Legal Framework, Approvals & Compliance

RERA Registration

GOA/NOR/2024/0219 – Registered with RERA Goa (Real Estate Regulatory Authority, Goa)

Land Title & Ownership

Freehold. Sanad title held by Aurora Crest. Title opinion by Salgaonkar & Associates, Panaji.

Regulatory Approvals

TCP Approval	Town & Country Planning Board, Goa – Layout Approval Ref. TCP/2024/B/8845
Environmental Clearance	Goa State Environment Impact Assessment Authority (SEIAA) – EC granted
CRZ Compliance	Project is entirely outside CRZ-I and CRZ-II zones; GCZMA NOC obtained
RERA Registration	RERA registered; QR code displayed on all marketing material
Forest Clearance	No forest land involved; land classified as 'orchard' / 'agricultural'

Legal & Corporate Structure

Each villa plot is sold on freehold basis via registered sale deed. Common amenities are held in the name of the Verdant Valley Community Association (Section 8 Company). Maintenance charges are governed by a Deed of Declaration (DoD) executed with each villa buyer.

11

Construction Timeline & Project Milestones

Q1 2024	Land acquisition (58 acres); title consolidation
Q2 2024	TCP layout approval; RERA registration; master plan finalised
Q3 2024	Infrastructure works: internal roads, drainage, water supply
Q4 2024	Foundation works: Type A & E villas commenced
Q1 2025	Structure complete – Type A & E (Phase 1: 30 villas)
Q2 2025	Type B & C villa foundations commenced
Q3 2025	Clubhouse structure complete; landscape earthworks
Q4 2025	Type B villa structure complete; Type C halfway
Q2 2026	Type D villas commenced; Type C complete
Q4 2026	All villa structures complete; fit-out commences
Q2 2027	Internal roads, landscaping, utility connections
Q4 2027	Clubhouse fit-out; organic farm establishment
Q2 2028	Solar commissioning; STP commissioning; mock-up villa ready
Q4 2028	Community infrastructure testing & commissioning
Q1 2029	Pre-OC inspections; punch-list rectifications
Q1 2030	OC obtained; possession of Phase 1 (60 villas)

12

Property Management & Post-Possession Services

Verdant Valley will be managed post-possession by the Verdant Valley Community Association (VVCA), with professional facility management contracted to Aurora Living Services. The Villa Rental Programme (VRP) is entirely opt-in and managed separately from the maintenance operations to maintain community character.

Estimated Monthly Maintenance Charges

Maintenance charges are indicative at launch and will be finalised 6 months prior to possession based on actual operating cost estimates. Charges exclude electricity, individual unit consumption, and optional add-on services.

Unit Type	Estimated Maintenance Charge
3 BHK Forest Villa	■8,500 – ■10,500 / month
5 BHK Premium Villa	■13,000 – ■16,000 / month
5 BHK Ultra Villa	■22,000 – ■28,000 / month

13

Frequently Asked Questions (FAQ)

Q: What is the RERA registration number for this project?

A: GOA/NOR/2024/0219 – Registered with RERA Goa (Real Estate Regulatory Authority, Goa)

Q: When will possession be offered?

A: Target possession is Premium Eco-Friendly Villa Community. Kindly refer to the Construction Timeline (Section 11) for milestone details. The developer commits to possession within the timeline registered with the respective state RERA authority.

Q: Is the project approved by banks for home loans?

A: Yes. The project is pre-approved by SBI, HDFC Bank, ICICI Bank, Kotak Mahindra Bank, Axis Bank, and Bank of Baroda. A dedicated home loan assistance desk is available at the sales centre.

Q: Are NRIs permitted to purchase?

A: Yes. NRIs and OCIs may purchase under the Foreign Exchange Management Act (FEMA) 1999 and RBI regulations. Funds must be remitted from an NRE / NRO / FCNR account. Dedicated NRI relationship managers are available.

Q: What are the stamp duty and registration charges?

A: Stamp duty and registration charges are as per the applicable state government schedule at the time of execution of the Agreement for Sale / Sale Deed. Buyers are advised to consult their legal counsel.

Q: Is there a guaranteed rental return scheme?

A: Aurora Crest does not offer guaranteed rental schemes. Rental yield projections in this document are based on market analysis and are not guarantees. Actual yields may vary.

Q: When will the sample flat / show unit be available?

A: Sample flats are expected to be ready approximately 30 months after construction commencement. Virtual 3D walkthroughs are available immediately on the project website.

Q: What is the process to book a unit?

A: Step 1: Select unit from availability chart. Step 2: Submit EOI (Expression of Interest) with booking cheque (₹1L–₹5L). Step 3: Agreement for Sale executed within 60 days. Step 4: Payment as per selected plan.

Q: What happens if the project is delayed beyond the RERA timeline?

A: In case of delay beyond the RERA-registered completion date, buyers are entitled to interest compensation at SBI MCLR + 2% per annum on amounts paid, as per the Real Estate (Regulation and Development) Act, 2016.

Q: Can I resell my unit before possession?

A: Yes. Resale during construction is permissible. The buyer must execute a tripartite agreement with the developer, and all transfer charges as per the Agreement for Sale terms will apply.
